HINTS:

- Make sure that there is sufficient contrast between background and font colour.
- Please use only closed formats to save your print data, preferably PDF (PDF/X-4 or PDF 1.6), alternatively JPG, TIFF, EPS.
- Lines should be at least 0.125 pt thick.
- Do not use frames as layout borders, as these can be cut by machine tolerances and thus become visible.
- Photos, images and graphics: 250 dpi
- Content should be placed at least 3 mm from the edge of the final format.
